COMMENTS

Almeria airport is a small one. The bus driver shall be waiting for you at the arrivals hall or right at the exit of it. We'll provide the bus driver with a list like the one above so he can check no one is missing. We'll also make sure that he is recognisable as part of the Hot Quarks crew (we'll dress him up like a quark or something). Note that the provided departure time is approximate.

The shuttle service around 20:00 hours shall be confirmed soon. Probably, since there are only 4 people arriving at that time, we shall provide a regular taxi service.

The schedule for the shuttle service on Sep 28th will be available during the conference

b) Taxi: For those of you arriving in Almería before/after sep 21, the most convenient way to get to the hotel is getting a taxi. The total cost should be around 55-60 euro.

c) Arrivals through Málaga. Connections from Málaga airport to Las Negras by public transportation are not easy. You can check the bus schedule from Málaga bus station to Almería here <http://www.alsa.es/en>. Please note that there are some buses leaving directly from Málaga airport to Almería. Otherwise, there is a direct train taking you from the airport to the main station in Málaga downtown. The bus station is across the street. Once in Almería you can get yet another bus to Las Negras (service is provided by Alsa), get a taxi to Las Negras or get a taxi to the airport and there hop on one of the shuttle services provided by the conference organization.

d) Contact: Had you any problem during your trip, you can contact the hotel desk at (+34) 950388228 or Javier Albacete, local organiser, at (+34) 660556976. The hotel address is: Calle del Navegante s/n, Las Negras. Once in Las Negras it is pretty much impossible to miss it, it's a very small village.
